## Performance Auditing

---

Performance auditing is a primary function of the ACT Audit Office (the Audit Office). Performance audits are conducted under the authority of the *Auditor-General Act 1996* in accordance with the requirements of Australian Auditing Standards relevant to performance auditing.

Attachment A provides information on the conduct of a performance audit.

## The Performance Audit Program

---

Subsection 13(1) of the *Auditor-General Act 1996* provides that the Auditor-General must prepare and publish a program for performance audits that the Auditor-General intends to conduct in the next financial year.

Strategic planning for the Performance Audit Program (the Program) is an ongoing activity. Environmental scans inform this process as does the Audit Office's ongoing work, not only in its performance audits but also its program of financial statement audits and reviews of statements of performance.

The Audit Office has developed the Program having regard to the Office's mandate, its strategic plan, and interests of its primary stakeholders: the Legislative Assembly and the ACT community.

In planning and prioritising performance audit coverage the Audit Office seeks to:

- promote transparency, accountability and value for money in the delivery of public services and the use of government resources;
- provide the Legislative Assembly with independent assessments of the performance of public sector bodies and the use of government resources; and
- respond to emerging issues of importance to the Legislative Assembly and the broader community.

Potential audit topics are selected to cover at least one of the following Auditor-General's focus areas:

- greatest benefit for the whole community;
- improving services and programs;
- assisting the disadvantaged and vulnerable;
- developing the next generation – all children get a 'fair go';
- advancing sustainable practices; and
- minimising waste in government.

In addition to these focus areas other factors are taken into account. These are described in [Attachment B](#).

In developing the Program the Auditor-General consults with: the Public Accounts Committee; the Speaker of the Legislative Assembly; members of the Legislative Assembly; the Head of Service; ACT Government directors-general and chief executive officers (or their equivalents); statutory office holders of various ACT Government agencies; and other stakeholders.

The Auditor-General determines the final Program.

## 2018-19 Performance Audit Program

---

This document provides information on audits currently underway, those that are proposed to commence in 2018-19 and audit topics that may be considered in 2019-20 and 2020-21. The Audit Office is placing the 2018-19 Program in the context of a three year horizon to provide a longer-term perspective on its strategic direction.

The Program may be subject to change as a result of additional planning or new and emerging priorities or risks, including the need to conduct urgent investigations, reviews or audits, or the need to address issues that emerge from representations or public interest disclosures.

Subsection 13(1) of the *Auditor-General Act 1996* provides that the published Performance Audit Program should identify audits that the Auditor-General intends to conduct under:

- section 12 - audits in relation to ACT Government directorates, Territory entities, joint ventures in which the Territory or a Territory entity has a controlling interest or a trust in which the Territory or a Territory entity has a controlling interest;
- section 13C - audits of non-public sector entities at the request of a Minister or the Public Accounts Committee; and
- section 13D - audits of non-public sector entities initiated by the Auditor-General.

The Program does not include audits that had been requested by a Minister or the Public Accounts Committee under section 13C of the *Auditor-General Act 1996*.

Section 13D (and section 13C) of the *Auditor-General Act 1996* provide that audits of non-public sector entities may occur if a public sector entity has provided property to a non-public sector entity for a purpose and the Auditor-General is satisfied:

- the usual acquittal procedures for the use of property provided by a public sector entity have been exhausted (paragraph 13C(3)(a));
- there are no other mechanisms reasonably available to the public sector entity to resolve the proposed subject of the audit (paragraph 13C(3)(b)); and
- failure to conduct the audit may result in significant risk to the Territory (paragraph 13C(3)(c)).

Some of the proposed audits may cover activities of ACT Government directorates and agencies that involve the provision of property or services to non-public sector entities. If this occurs the Auditor-General will explicitly address paragraphs 13C(3)(a) to (c) of the *Auditor-General Act 1996*.

### ***Representations and public interest disclosures***

The Audit Office receives representations and public interest disclosures. The Auditor-General considers the most appropriate way to deal with each of these, including (potentially) through a performance audit. The development of the Program has been informed by a review of representations and public interest disclosures received by the Audit Office.

### **Number of Performance Audits Planned**

The Audit Office aims to table:

- seven audits in 2018-19;
- eight audits in 2019-20;
- nine audits in 2020-21; and
- nine audits in 2021-22.

The above is in accordance with the Audit Office's approved budget for 2018-19. While the Audit Office budget is forecast and approved to 2021-22, the Program is planned up to 2020-21.

Many audits do not start and finish in the one financial year; the Program lists those audits expected to start in the relevant year. Experience has shown that some proposed audits are not undertaken due to circumstances changing in the subject areas or higher priority issues emerging that warrant an audit, and for these reasons the future Program includes slightly more audits than are expected to be commenced.

Notwithstanding that some proposed audits may not be undertaken it is considered fairer to list all potential performance audits as identified in the Audit Office's planning work for the Program. This allows directorates and agencies to consider the issues in the audit topic areas. Even if, ultimately, an audit is not undertaken the fact that it was listed shows that the Audit Office considers it an area worthy of review.

Attachment B outlines the selection process for performance audit topics.

Attachment C lists audit reports tabled in the Legislative Assembly since January 2011.

## Audits in Progress

**Table 1 – Audits in Progress as at 20 June 2018, planned to be presented to the Speaker for tabling by 30 June 2018**

#	Topic/Entity Agency	Details
1	<p><b>Assembly of rural land west of Canberra</b> (Former Land Development Agency and Environment, Planning and Sustainable Development Directorate)</p>	<p><b>Areas of focus: improving services and programs / minimising waste in government / greatest benefit for the whole community</b></p> <p>The <i>Planning and Development Act 2007</i> and <i>Planning and Development (Land Acquisition Policy Framework) 2014 Direction No. 1</i> provided the framework for the former Land Development Agency to acquire land, provided certain tests and principles were met.</p> <p>The audit is examining the activities of the former Land Development Agency in assembling rural land west of Canberra. This includes consideration of the Land Development Agency’s recognition and adherence to the principles and tests in the <i>Planning and Development (Land Acquisition Policy Framework) 2014 Direction No. 1</i> and ACT Government planning processes.</p>
2	<p><b>Engagement with Aboriginal and Torres Strait Islander students, families and community</b> (Education Directorate)</p>	<p><b>Area of focus: improving services and programs / assisting the disadvantaged and vulnerable / developing the next generation – all children get a ‘fair go’</b></p> <p>Evidence shows that effectively engaging with Aboriginal and Torres Strait Islander students, families and community contributes to the provision of quality education services and enhanced educational outcomes.</p> <p>The importance of engaging with Aboriginal and Torres Strait Islander students, families and community is recognised in the ACT Education Directorate’s <i>Cultural Integrity in ACT Public Schools</i> initiative. Cultural Integrity describes the environment a school creates to support Aboriginal and Torres Strait Islander students, and to welcome and engage their families and communities. The first of four Cultural Integrity Dimensions is ‘Engagement with families and community’.</p> <p>The audit is considering the effectiveness of the Education Directorate’s engagement with Aboriginal and Torres Strait Islander students, families and community; the audit is focusing on five schools.</p>

**Table 2 – Audits in Progress as at 20 June 2018 to be presented to the Speaker for tabling in 2018-19**

#	Topic/Entity Agency	Details
1	<p><b>ACT Health’s management of allegations of misconduct and bullying</b> <i>(Health Directorate and Public Sector Standards Commissioner)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>An audit on ACT Health’s response to misreporting of data was included in the <i>Performance Audit Program 2017-18 and Potential Audits to Commence over 2018-19 to 2019-20</i>. Within this context, in March 2018 the Auditor-General decided to conduct an audit focused on the management of specific allegations of breaches of the <i>Public Sector Management Act 1994</i> relating to the preparation and reporting of performance information, as a first audit.</p> <p>The audit is examining management and administrative actions taken in relation to:</p> <ul style="list-style-type: none"> <li>• allegations of breaches of the <i>Public Sector Management Act 1994</i> by former staff of the Performance Information Branch; and</li> <li>• allegations made by these former staff of breaches of the <i>Public Sector Management Act 1994</i> by senior ACT Health Executives.</li> </ul> <p>A second audit is proposed for 2018-19 relating to the ACT Health Directorate’s activities to plan for, and produce, performance information for reporting purposes, refer to page 6.</p>
2	<p><b>Referral processes for the support of vulnerable children</b> <i>(Community Services, Education and Health directorates)</i></p>	<p><b>Areas of focus: assisting the disadvantaged and vulnerable / improving services and programs / developing the next generation - all children get a ‘fair go’</b></p> <p>ACT Government agencies provide a range of services to vulnerable children and their families. These are primarily delivered through the Office for Children, Youth and Family Support in the Community Services Directorate, although other directorates and agencies, including the Education and Health directorates, also deliver programs and initiatives that have an impact on children. It is important that ACT Government programs and services are effectively managed and coordinated, in order to maximise their reach and influence and to ensure that services are targeted towards children most in need.</p> <p>From before birth through to age 5, there are multiple instances where a child may come in contact with the services provided by the human services cluster. The audit is examining the processes in place to identify children who may be vulnerable, what services are available and suitable, and how children are connected to services to provide the child (and their parents or caregivers) with the support they need.</p>

## Proposed Audits to Commence in 2018-19

As well as completing the audits in progress, new audits will be commenced during 2018-19. These audits are listed in Table 3. They are not in order of priority as to when they will commence as this is yet to be determined.

#	Topic/Entity or Agency	Potential Objectives and Scope
1	<b>ICT strategic planning</b> <i>(Chief Minister, Treasury and Economic Development Directorate and selected directorates and agencies)</i>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>Effective public administration relies heavily on information and communications technology (ICT). Policy development, service delivery and administration cannot be carried out to the standards expected by the community without it.</p> <p>To achieve public administration objectives, ICT needs to be well-managed and this can only occur in the context of effective strategic planning. Issues arising from the ageing of key systems and other difficulties, such as the lack of necessary interoperability, can significantly degrade the capacity of ICT to deliver the required capability over time.</p> <p>The audit could assess the effectiveness of the ACT Government's ICT strategic planning processes with a focus on risks (for example, ageing legacy systems) and on opportunities (for example, cloud-based services). The audit would also take into account the planned move towards centralised office accommodation.</p>
2	<b>Performance information and reporting in ACT Health</b> <i>(Health Directorate)</i>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>An audit on ACT Health's response to misreporting of data was included in the <i>Performance Audit Program 2017-18 and Potential Audits to Commence over 2018-19 to 2019-20</i>.</p> <p>This followed the identification of errors, in May 2016, in the <i>ACT Health Services Quarterly Performance Report</i> (Quarter 3 2015-16) and communication of concerns from the Director-General of the ACT Health Directorate to the Auditor-General in September 2016 with respect to the integrity of the Health Directorate's preparation and reporting of performance information. The 2017 Report on Government Services was released in February 2017 and ACT Health data was omitted for some measures.</p> <p>On 14 February 2017 the ACT Minister for Health announced that 'a comprehensive, system-wide review of ACT Health data and reporting processes will be undertaken to ensure data management and quality assurance processes are robust and accurate'.</p> <p>In March 2018 the Auditor-General decided to conduct an audit that is focused on the management of specific allegations of breaches of the <i>Public Sector Management Act 1994</i> relating to the</p>

**Table 3 – Proposed Audits to Commence in 2018-19**

#	Topic/Entity or Agency	Potential Objectives and Scope
		<p>preparation and reporting of performance information as a first step.</p> <p>This audit could examine the ACT Health Directorate’s activities to plan for, and produce, performance information for reporting purposes. The audit could also consider progress in relation to the finalisation of the system-wide review of ACT Health data and implementation of recommendations arising from this review and other previous reviews.</p>
3	<p><b>Access Canberra</b></p> <p><i>(Chief Minister, Treasury and Economic Development Directorate – Access Canberra)</i></p>	<p><b>Areas of focus: improving services and programs/ greatest benefit for the whole community</b></p> <p>Access Canberra was established in 2014. The objective for Access Canberra is to shape the delivery of services around businesses, community groups and individuals seeking to engage with the ACT Government, to enable a ‘no wrong door’ approach. Access Canberra brings together seven previously existing agencies and functions: Canberra Connect; Office of Regulatory Services; Environment Protection Agency; Construction and Client Services; Health Protection Services (food services); Gambling and Racing Commission; and public unleased land permits. Access Canberra has three functional responsibilities: regulation, licensing and enforcement.</p> <p>The audit could examine the extent to which Access Canberra has achieved the objective of an integrated and seamless service. It could also examine the extent to which Access Canberra has facilitated access to government services. The audit could also assess the useability, availability and security of Access Canberra’s customer-facing ICT systems.</p>
4	<p><b>Protection of human rights</b></p> <p><i>(Justice and Community Safety Directorate and other directorates and agencies)</i></p>	<p><b>Areas of focus: assisting the disadvantaged and vulnerable/improving services and programs/ developing the next generation – all children get a ‘fair go’</b></p> <p>The ACT is one of two Australian jurisdictions to have human rights legislation; the <i>ACT Human Rights Act 2004</i>. This Act places obligations on ACT Government agencies to act consistently with human rights. ACT Government agencies therefore require a sound and systemic approach to ensure they comply with these obligations.</p> <p>The audit could examine the effectiveness of selected ACT Government agencies’ recognition and implementation of the requirements of the Act. A particular focus of the audit could be:</p> <ul style="list-style-type: none"> <li>• agencies’ complaints handling mechanisms and their compliance with the Act; and</li> <li>• the Justice and Community Safety Directorate’s role in overseeing other agencies’ recognition and implementation of the Act.</li> </ul>

**Table 3 – Proposed Audits to Commence in 2018-19**

#	Topic/Entity or Agency	Potential Objectives and Scope
5	<p><b>Crown lease variations</b> <i>(Environment, Planning and Sustainable Development Directorate)</i></p>	<p><b>Areas of focus: greatest benefit for the whole community / improving services and programs</b></p> <p>Residents and businesses in the ACT do not own land and instead lease it from the Crown on what is usually a 99-year term. When a crown lease is granted, the ACT Government receives payment based on the provisions of that lease at that time. Any subsequent variations to the lease are defined as development in the <i>Planning and Development Act 2007</i> and require development approval. When the provisions of a crown lease are varied, these variations often attract a lease variation charge.</p> <p>Variations to crown leases include (but are not limited to):</p> <ul style="list-style-type: none"> <li>• variations to the lease purpose to permit additional or alternative uses;</li> <li>• variations to development rights and obligations;</li> <li>• subdivision of a single block of land into two or more blocks of land; and</li> <li>• consolidation of two or more blocks of land into a single block of land.</li> </ul> <p>The audit could assess the effectiveness of the Environment, Planning and Sustainable Development Directorate’s administration of the crown lease variation process, focusing on the:</p> <ul style="list-style-type: none"> <li>• crown lease variation approval process;</li> <li>• determination of lease variation charges; and</li> <li>• execution of changes to leases.</li> </ul>
6	<p><b>Shared Services</b> <i>(Chief Minister, Treasury and Economic Development Directorate and selected directorates and agencies)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>Shared Services was established in 2007 in order to reduce duplication in the delivery of core corporate and IT services across the ACT Government. Corporate services include human resources (leave, pay, recruitment and salary packaging), finance (invoices, cash management, chart of accounts), records and mail management services and publishing on the web or by print.</p> <p>The audit could assess the efficiency and effectiveness of the service provision of Shared Services in meeting the needs of ACT Government agencies including:</p> <ul style="list-style-type: none"> <li>• the transparency and appropriateness of cost models;</li> <li>• the timeliness and accuracy of billing;</li> <li>• alignment of service delivery against directorate needs;</li> <li>• the definition and benchmarking of services and associated performance metrics; and</li> </ul>

**Table 3 – Proposed Audits to Commence in 2018-19**

#	Topic/Entity or Agency	Potential Objectives and Scope
		<ul style="list-style-type: none"> <li>costing against leading service providers including in-house, shared service and outsourced models.</li> </ul>
7	<p><b>Total Facilities Management procurement</b> <i>(Community Services Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in government / greatest benefit for the whole community</b></p> <p>A Total Facilities Management (TFM) contract has been in place for the maintenance of public housing in the ACT since 2012. The original five-year contract has been extended to October 2018 and a procurement exercise has been underway for a new contract since late 2016. The procurement exercise is expected to be concluded in 2018.</p> <p>The audit could consider the effectiveness of the procurement process, including whether it was conducted in accordance with the <i>Government Procurement Act 2001</i> and the <i>Government Procurement Regulations 2007</i>. The Audit could also consider:</p> <ul style="list-style-type: none"> <li>alignment with procurement guidelines, including value for money;</li> <li>the effectiveness of the market testing process;</li> <li>that risks are identified and properly managed;</li> <li>that probity arrangements are effective and appropriate; and</li> <li>arrangements are in place to appropriately manage qualitative and contract performance.</li> </ul> <p>The audit could be the first in a series of audits, with a second audit considering the implementation of the TFM contract in 2019-20.</p>
8	<p><b>Chronic disease services</b> <i>(Health Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / assisting the disadvantaged and vulnerable</b></p> <p>Assistance to those with chronic health problems includes clinical, psychological and rehabilitation services provided under the auspices of the Health Directorate, as well as support and respite services provided by community and other non-government entities.</p> <p>The delivery of services can be organised according to an individual’s underlying condition or the presenting condition (including psychological conditions such as depression). The co-morbidity of chronic health conditions poses considerable challenges for coordinating the delivery of assistance within government agencies and across the community sector.</p> <p>The audit could examine the effectiveness and efficiency of the Health Directorate’s service delivery and support arrangements for the assistance of those with chronic health conditions. It could examine the effectiveness of coordination with community and other agencies also involved in the care of those with chronic health conditions.</p>

**Table 3 – Proposed Audits to Commence in 2018-19**

#	Topic/Entity or Agency	Potential Objectives and Scope
9	<p><b>Management and maintenance of school buildings</b> <i>(Education Directorate)</i></p>	<p><b>Areas of focus: improving services and programs/ minimising waste in government</b></p> <p>ACT Government-owned school buildings are significant assets; the Education Directorate as a whole owns buildings, most of which are schools, with a total value in 2017 of more than \$1.5 billion. The quality of these buildings is an important factor in providing education to ACT children. Accordingly, the effective, efficient and economic management and maintenance of these assets is essential.</p> <p>The audit could examine the management and maintenance of primary, secondary and college school buildings including the effectiveness of:</p> <ul style="list-style-type: none"> <li>• planning over the entire asset management cycle;</li> <li>• financial management of contracts to provide new assets and the maintenance of existing assets; and</li> <li>• processes to accept new, upgraded or repaired assets from contractors.</li> </ul>

## Potential Audits to Commence in 2019-20

The following potential audit topics are under consideration for commencement in 2019-20 (Table 3) and 2020-21 (Table 4).

Further planning will refine the scope and focus of each audit. In deciding on the audit scope, the Audit-Office will consider possible inclusion of non-public sector entities where relevant. Relevant agencies will be consulted during preliminary audit planning.

A selection between two audits may yet need to be made. Where this is relevant the audits are marked as an 'a' or 'b'.

**Table 4 – Potential Audits to Commence in 2019-20**

#	Topic/Entity or Agency	Potential Objectives and Scope
1	<p><b>Implementation of the Capital Metro Light Rail Project</b></p> <p><i>(Transport Canberra and City Services Directorate)</i></p>	<p><b>Areas of focus: greatest benefit for the whole community / minimising waste in government / improving services and programs.</b></p> <p>In May 2016, the ACT Government signed an agreement for the delivery and implementation of the light rail. The delivery and implementation of the light rail is to be achieved through an Availability PPP at an expected cost of approximately \$939 million (present value, January 2016) or \$1.78 billion (nominal value) over 20 years.</p> <p>The light rail project is a large financial commitment for the Territory with significant risks. Based on the cost, complexity and potential impacts of the light rail project the Audit Office previously identified that a series of performance audits could be conducted over the course of the project to identify opportunities for improvement in a timely manner and to provide assurance in relation to this significant undertaking. The first performance audit <i>Initiation of the Light Rail Project (Report 5, 2016)</i> was tabled in the Legislative Assembly in June 2016.</p> <p>The audit could examine aspects associated with the implementation of the Capital Metro Light Rail Project, including the Transport Canberra and City Services Directorate's management and oversight of the Availability PPP agreement for the construction and delivery of the project.</p>
2	<p><b>Affordable housing</b></p> <p><i>(Chief Minister, Treasury and Economic Development Directorate and selected directorates and agencies)</i></p>	<p><b>Areas of focus: assisting the disadvantaged and vulnerable / improving services and programs / developing the next generation – all children get a 'fair go'</b></p> <p>The ACT Government first released the <i>Affordable Housing Action Plan (AHAP)</i> in 2007. A suite of initiatives had been identified under various phases of the AHAP, including supply-side initiatives associated with supply of land and dwellings and demand-side initiatives associated with facilitating access to affordable housing for members of the community and the introduction of new affordable housing thresholds for Greenfield estates.</p>

**Table 4 – Potential Audits to Commence in 2019-20**

#	Topic/Entity or Agency	Potential Objectives and Scope
		<p>In 2017 the ACT Government established an Affordable Housing Advisory Group, in July 2017 the <i>Towards a New Housing Strategy</i> discussion paper was released and in October 2017 the <i>ACT Housing and Homelessness Summit</i> was held. The ACT Government intends to release a new affordable housing strategy in 2018.</p> <p>The audit could examine processes for planning for, and implementing, initiatives in the new affordable housing strategy. The audit could also consider the governance and administrative arrangements associated with the implementation, monitoring and reporting of the Strategy.</p>
3	<p><b>Storage, retention and release of sensitive data</b></p> <p><i>(Justice and Community Safety Directorate and other directorates and agencies)</i></p>	<p><b>Areas of focus: Improving services and programs / minimising waste in government</b></p> <p>ACT Government agencies are responsible for the management of a significant range of information and data. The <i>Information Privacy Act 2014</i> (ACT) defines sensitive information about individuals and outlines requirements about its collection and use. The ACT Government <i>Protective Security Policy Framework (PSPF)</i>, which was introduced in 2014, establishes mandatory requirements for ACT Government agencies relating to a range of elements including information security. The <i>Territory Records Act 2002</i> outlines requirements for the proper safekeeping of ACT Government agency records.</p> <p>Given the volume of such data held by many agencies, there is a risk that the data are inappropriately collected, insecurely stored or improperly released. There are particular and specific risks associated with the management of electronic data, given new and emerging technologies associated with the management of this data and associated vulnerabilities.</p> <p>The audit could consider selected ACT Government agencies' activities to manage the storage, retention and release of sensitive data. A specific focus of the audit could be the management and handling of electronic data and its associated risks.</p>
4a  OR	<p><b>Support for Indigenous persons</b></p> <p><i>(Office for Aboriginal and Torres Strait Islander Affairs – Community Services Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / assisting the disadvantaged and vulnerable</b></p> <p>The Office for Aboriginal and Torres Strait Islander Affairs provides strategic advice to the Chief Minister on issues affecting Aboriginal and Torres Strait Islander people living in the ACT. The Office coordinates a whole-of-government approach to issues affecting Aboriginal and Torres Strait Islander residents and provides secretariat and administrative support to the Aboriginal and Torres Strait Islander Elected Body and the United Ngunnawal Elders Council.</p>

**Table 4 – Potential Audits to Commence in 2019-20**

#	Topic/Entity or Agency	Potential Objectives and Scope
		<p>The Office has responsibilities for monitoring and holding ACT Government agencies and business units to account for their programs and services.</p> <p>The audit could examine the effectiveness of the Office for Aboriginal and Torres Strait Islander Affairs in monitoring and supporting program and service delivery initiatives in the ACT Government. An audit could examine what processes are in place to perform this function and how effective the Office is in holding business units to account.</p>
4b	<p><b>Health services for detainees</b></p> <p><i>(Health Directorate and Justice and Community Safety Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / assisting the disadvantaged and vulnerable</b></p> <p>The Primary Health Service (within Justice Health Services) conducts health assessments and manages identified health problems within a primary care framework for both adults and juveniles. This includes assessment of health status, identification of acute and chronic health conditions, management of those health conditions and ensuring consistency in the induction process of all new detainees.</p> <p>A number of reviews have been completed in recent years, including:</p> <ul style="list-style-type: none"> <li>• an independent inquiry by Mr Philip Moss AM in November 2016 (<i>Independent Inquiry into the Treatment in Custody of Detainee Steven Freeman</i>) that made findings in relation to the provision of health and custodial services at the Alexander Maconochie Centre. The report made nine recommendations, some of which were directed to improving the safety, health and care of detainees; and</li> <li>• a review by the ACT Health Services Commissioner in March 2018 (<i>Review of opioid replacement treatment program at the Alexander Maconochie Centre</i>). The report makes sixteen recommendations.</li> </ul> <p>The audit could consider the provision of health services for adult detainees at the Alexander Maconochie Centre and the Periodic Detention Centre including the management and governance of service provision and the handling and reporting of incidents, including external review mechanisms. The audit would take into account reviews that have been conducted and could also consider the implementation of relevant recommendations arising from the independent inquiry.</p>
5	<p><b>School safety</b></p> <p><i>(Education Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / developing the next generation – all children get a ‘fair go’</b></p> <p>In 2015 a comprehensive review was undertaken that looked specifically at the education of students with complex needs and challenging behaviour. A report was published in November 2015</p>

**Table 4 – Potential Audits to Commence in 2019-20**

#	Topic/Entity or Agency	Potential Objectives and Scope
		<p>that included 50 recommendations, which were agreed to by the government. These recommendations formed the basis of the <i>Schools for All</i> program, which the Education Directorate intended to implement over three years, with the first year focused on the implementation of the recommendations and the following two years focused on ensuring that the intended outcomes were met.</p> <p>The Education Directorate has also developed a <i>Safe and Supportive Schools</i> policy that stipulates policies and procedures to address behaviours including bullying, harassment and violence and has a Critical/Non-Critical Incident Reporting policy in place which determines steps to be taken for reporting these incidents and the information to be collected.</p> <p>The audit could consider the implementation of recommendations relevant to the topic of school safety. The audit could consider whether incidents have been over or underreported and whether this information has been collected and/or published as required. An audit could also consider the general safety of students, teachers and other staff in the ACT public school system.</p>
6	<p><b>Planning and development processes for urban renewal</b> <i>(Environment, Planning and Sustainable Development Directorate)</i></p>	<p><b>Areas of focus: greatest benefit for the whole community / improving services and programs / advancing sustainable practices</b></p> <p>The ACT Government's <i>Canberra: A statement of ambition</i> (2016) identifies the need to deliver better metropolitan infrastructure that helps to renew Canberra's inner precincts. The Minister for Planning's Statement of Planning Intent 2015 also identifies intentions, including to:</p> <ul style="list-style-type: none"> <li>• focus higher-density development with diverse housing types in the city centre, town and group centres, along major transport corridors and in other locations with good public transport and amenity;</li> <li>• foster medium-density housing options such as terrace houses, town houses and secondary dwellings as an appropriate form of development in suburbs; and</li> <li>• locate infill development and affordable housing close to public transport routes and adjacent to parks, open space and other areas of high amenity.</li> </ul> <p>A range of urban renewal initiatives are underway in the Territory, including in Civic and each of the town centres; the Kingston Arts Precinct; the Canberra Brickworks and surrounding areas at Yarralumla and Deakin; Northbourne Avenue; and various group centres.</p> <p>The audit could examine the effectiveness of the planning and development processes associated with these and other initiatives. It could focus on overall coordination, and governance</p>

**Table 4 – Potential Audits to Commence in 2019-20**

#	Topic/Entity or Agency	Potential Objectives and Scope
		and accountability arrangements, or on the Directorate's engagement with the community as part of major master-planning activities and urban renewal strategies.
7	<p><b>Effectiveness of the ACT Waste Management Strategy</b></p> <p><i>(Transport Canberra and City Services Directorate)</i></p>	<p><b>Area of focus: advancing sustainable practices</b></p> <p>In 2011 the Government released the <i>ACT Waste Management Strategy 2011–2025</i> with the following four key objectives:</p> <ul style="list-style-type: none"> <li>• less waste generated</li> <li>• full resource recovery</li> <li>• clean environment</li> <li>• carbon-neutral waste sector</li> </ul> <p>Also included are 29 individual strategies covering waste from households, commercial and industrial operations, construction and demolition sector, garden organics and timber waste from urban forest and street tree management.</p> <p>The audit could examine the effectiveness of the strategy. This could include consideration of the implementation of initiatives under the scheme as well as ongoing monitoring and review of the effectiveness of those initiatives.</p>
8	<p><b>Leave administration</b></p> <p><i>(Selected directorates and agencies)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>Leave entitlements of ACT Government employees include those established in statutory minimum conditions of employment and other entitlements determined through workplace negotiation.</p> <p>Employee expenses represent a significant cost to most ACT Government agencies. If not effectively managed, agencies are exposed to increasing costs associated with accruing leave entitlements. Effective leave management supports employees' well-being and agencies' productivity and ensures that excessive leave risks are identified and addressed.</p> <p>The audit could assess the effectiveness of selected agencies' management of staff leave entitlements including:</p> <ul style="list-style-type: none"> <li>• determining whether they have established appropriate arrangements in relation to leave and have effective internal controls over leave processing;</li> <li>• assessing whether leave has been managed in accordance with the relevant requirements and whether systems and controls for processing leave are working as intended; and</li> <li>• identifying how usage of leave varies between agencies and the reasons for these variations.</li> </ul> <p>The audit could also be informed by internal audit activity undertaken within the directorates and agencies.</p>

**Table 4 – Potential Audits to Commence in 2019-20**

#	Topic/Entity or Agency	Potential Objectives and Scope
9	<p><b>Collections management</b></p> <p><i>(Cultural Facilities Corporation, Libraries ACT, Territory Records Office, ACT Heritage and other directorates and agencies)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>Several ACT Government agencies are responsible for the management and storage of valuable assets and collections. It is important that these are managed and maintained efficiently and effectively, with the intent of maintaining the integrity of the collection and facilitating its access to the community (where appropriate).</p> <p>The audit could consider selected ACT Government agencies' policies and processes for the management and storage of valuable assets and collections. This could include consideration of processes to determine the ongoing suitability of current storage arrangements and planning for the storage of future collections.</p>
10	<p><b>ACT Ambulance Service</b></p> <p><i>(Justice and Community Safety Directorate)</i></p>	<p><b>Areas of focus: greatest benefit for the whole community / improving services and programs</b></p> <p>The ACT Ambulance Service is a business unit within the Emergency Service Agency of the Justice and Community Safety Directorate. The ACT Ambulance Service provides emergency, non-emergency, pre-hospital and aeromedical ambulance services, including patient care and transport. It employs more than 200 staff and operates from seven locations around Canberra.</p> <p>In 2014-15 an organisational review of the ACT Ambulance Service culminated in the development of the <i>ACTAS Enhancing Professionalism: A Blueprint for Change</i>. The Emergency Services Agency has since been in the process of implementing the outcomes of the Blueprint.</p> <p>The audit could examine the efficiency and effectiveness of the ACT Ambulance Service. It could also consider the ACT Ambulance Service's progress in implementing the outcomes from the Blueprint.</p>
11	<p><b>Use of closed circuit television</b></p> <p><i>(Justice and Community Safety Directorate, Australian Federal Police and other directorates and agencies)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>Canberra has several networks of Closed Circuit Television (CCTV) cameras in areas such as Civic, Kingston, Manuka and Canberra Stadium. In 2017, trials were to commence of stand-alone portable CCTV units. These units are funded by the ACT Government and primarily used by the Australian Federal Police to identify anti-social or criminal activity. CCTV is also used to provide security for staff with public contact, to provide security of assets and the help with business monitoring.</p> <p>The audit could consider ACT Government agencies' activities for the investment and operation of the CCTV network, and the extent of coordination between the Justice and Community Safety</p>

**Table 4 – Potential Audits to Commence in 2019-20**

#	Topic/Entity or Agency	Potential Objectives and Scope
		<p>Directorate and the Australian Federal Police and other agencies that use CCTV. In doing so the audit could also consider the relevance and application of the ACT Government Code of Practice for Closed Circuit Television Systems. The audit could also include consideration of the interoperability of the CCTV network, including the use of CCTV on buses and light rail.</p>
12	<p><b>Total Facilities Management contract implementation</b> <i>(Community Services Directorate and other directorates and agencies)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in government / greatest benefit for the whole community</b></p> <p>A Total Facilities Management (TFM) contract has been in place for the maintenance of public housing in the ACT since 2012. The original five-year contract has been extended to October 2018 and a procurement exercise has been underway for a new contract since late 2016. The procurement exercise is expected to be concluded in 2018.</p> <p>The audit could be the second in a series of audits (refer to page 9). It could include consideration of the implementation of the TFM contract, which is expected to commence implementation in 2018. In considering the implementation of the TFM contract the audit could consider the effectiveness of the management of the TFM contract and whether it has delivered on its intended objectives.</p>

**Table 5 – Potential Audits to Commence in 2020-21**

#	Topic/Entity or Agency	Potential Objectives and Scope
<p><b>1a</b></p> <p><b>Internal audit</b> <i>(Selected directorates and agencies)</i></p> <p><b>OR</b></p>		<p><b>Areas of focus: improving services and programs / minimising waste in Government</b></p> <p>Internal audit functions and audit committees play important roles in the governance of public sector agencies. A distinguishing feature of an audit committee within an organisation’s governance framework is its independence from management. In the context of the public sector, audit committees provide an independent source of assurance and advice on key aspects of the entity’s operations.</p> <p>Internal audits across the ACT Government are largely conducted through the use of external providers. Each year, the financial statement audit process reviews the internal audit process and continues to identify issues, in particular in relation to independence of the audit function, across some agencies.</p> <p>The audit could consider whether selected agencies have used better practice principles when establishing and implementing their audit committee and in managing the internal audit function.</p>
<p><b>1b</b></p> <p><b>Implementation of audit recommendations</b> <i>(Selected directorates and agencies)</i></p>		<p><b>Area of focus: improving services and programs</b></p> <p>The Audit Office generally completes seven performance audits each year on different topics covering a range of ACT Government directorates and agencies that are tabled in the Legislative Assembly. The audit reports contain recommendations for directorates and agencies to improve the efficiency and effectiveness of public sector operations.</p> <p>The audit could examine the effectiveness of selected ACT Government agencies’ processes to respond to Auditor-General recommendations. The audit could include consideration of whether agencies have formal processes in place; the role of audit committees; and linkages with the activities of agencies’ internal audit units. In doing so, the audit could consider the implementation of recommendations from a selection of audit reports.</p>
<p><b>2a</b></p> <p><b>The Capital Framework</b> <i>(Chief Minister, Treasury and Economic Development Directorate)</i></p>		<p><b>Areas of focus: minimising waste in government / Improving services and programs</b></p> <p>The Capital Framework has applied to capital investment proposals, for example for building works, infrastructure works and roads and civil construction since late 2013. It provides for a process for the upfront assessment of capital works funding proposals in the ACT, and is administered by Procurement and Capital Works in the Chief Minister, Treasury and Economic Development Directorate. The assessment process includes:</p> <ul style="list-style-type: none"> <li>• Investment Logic Workshop, which seeks to assess the demonstrated need for a project;</li> </ul>

**Table 5 – Potential Audits to Commence in 2020-21**

#	Topic/Entity or Agency	Potential Objectives and Scope
OR		<ul style="list-style-type: none"> <li>• Early Project Overview, a presentation by project proponents which is intended to de-couple the capital works approvals process from a purely budget driven cycle;</li> <li>• Single Assessment Framework, a capital works business case process tiered to project value and risk with escalating levels of analysis; and</li> <li>• Post Implementation Review, which seeks to assess how the project performed against the expectations of the business case.</li> </ul> <p>The audit could consider the implementation of the Capital Framework, including its effectiveness in aiding capital works project decision-making. The audit could examine whether the anticipated financial and other benefits of the Capital Framework are being achieved.</p>
2b	<p><b>Procurement of high-value goods and services</b> <i>(Chief Minister, Treasury and Economic Development Directorate and other agencies)</i></p>	<p><b>Area of focus: minimising waste in Government</b></p> <p>ACT Government agencies’ procurement activities are subject to the <i>Government Procurement Act 2001</i> (the Act) and the <i>Government Procurement Regulation 2007</i> (the Regulation). In undertaking any procurement activity, an ACT Government agency must pursue value for money, which is defined in the Act to mean the best available procurement outcome, having regard to probity and ethical behaviour, the management of risk, open and effective competition; optimising whole of life costs and anything else prescribed by regulation.</p> <p>The <i>Government Procurement Regulation 2007</i> also outlines processes for the procurement of high-value goods and services. The Regulation requires that the acquisition of goods and services over \$200,000 must involve the calling of public tenders and requires that the Government Procurement Board be involved in certain procurements with even higher thresholds.</p> <p>The audit could consider ACT Government agencies’ compliance with the requirements of the <i>Government Procurement Act 2001</i> (the Act) and the <i>Government Procurement Regulation 2007</i> (the Regulation). The audit could also include consideration of the efficiency and probity of procurement processes.</p>

**Table 5 – Potential Audits to Commence in 2020-21**

#	Topic/Entity or Agency	Potential Objectives and Scope
3	<p><b>ACTPS Worker’s Compensation and Work Safety Improvement Plan</b></p> <p><i>(Chief Minister, Treasury and Economic Development Directorate and other directorates and agencies)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in Government</b></p> <p>The ACT Public Service <i>Worker’s Compensation and Work Safety Improvement Plan</i> was introduced in 2011-12 and was designed as a holistic approach to improving the health and return to work outcomes for injured ACTPS workers. The Plan represented a significant change in the way workers’ compensation is managed in the ACTPS.</p> <p>The audit could consider the implementation of the <i>Workers’ Compensation and Work Safety Improvement Plan</i> across the ACTPS and if it has led to the anticipated reduction in compensation premiums.</p>
4a	<p><b>Teacher and teaching quality</b></p> <p><i>(Education Directorate)</i></p>	<p><b>Areas of focus: greatest benefit for the whole community/ developing the next generation – all children get a ‘fair go’</b></p> <p>The Education Directorate’s <i>Great Teachers by Design</i> initiative outlines the directorate’s ‘systemic approach to ensuring highly effective teachers in Canberra public schools’. It outlines various strategies and approaches that are designed to contribute to improved professional engagement, knowledge and practice.</p> <p>The Teacher Quality Institute is an independent statutory authority, established through the <i>ACT Teacher Quality Institute Act 2010</i>, which is ‘charged with integrating standards-based quality measures into professional regulation as teachers enter and progress through career stages in the profession in order to enhance student outcomes’.</p> <p>The audit could consider the Education Directorate’s activities to implement the strategies and approaches outlined in <i>Great Teachers by Design</i> as well as the management of teacher registration, ranking and allocation to suitable schools. The role and activities of the Teacher Quality institute could also be considered as part of the audit.</p>
4b	<p><b>Access to ICT in ACT public schools</b></p> <p><i>(Education Directorate)</i></p>	<p><b>Area of focus: developing the next generation – all children get a ‘fair go’/ greatest benefit for the whole community</b></p> <p>ICT literacy is a major tenet of the Education Directorate’s <i>Education Capital 2017</i> strategy, which aims to implement an ACT Academy of Coding and Cyber Skills as well as ‘Google Apps for Education’. The results of the most recent assessment of Australian students’ ICT literacy showed that students in the ACT performed well against other jurisdictions but, when compared to the results of the 2011 assessment, the report found that there was a statistically significant decrease in test performance in the ACT.</p>

**Table 5 – Potential Audits to Commence in 2020-21**

#	Topic/Entity or Agency	Potential Objectives and Scope
		<p>The audit could examine the sufficiency of access to ICT in classrooms, to enhance educational outcomes and to equip students to participate in an increasingly ICT-centric world. An audit could look at how effectively teachers are prepared, and up-skilled, to incorporate ICT education and use into their lessons, as well as issues around equity of access.</p>
5	<p><b>Outpatient care</b> <i>(Health Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / greatest benefit for the whole community</b></p> <p>Outpatient services (or ambulatory care) are services that are provided without the need for admission to hospital. A wide range of services are offered in an outpatient care setting, including assessment and follow up appointments that allow clients to manage acute and chronic conditions while reducing their reliance on hospitals. ACT Health provides outpatient services for adults and children across a number of locations, including community health centres, the Canberra Hospital and in the home.</p> <p>Outpatient care often involves the provision of multiple services in the same timeframe. As such, adequate management and oversight are essential to avoid duplication and/or gaps in service provision.</p> <p>The audit could examine the administration of the delivery of outpatient services, including the management of associated risks or a broader review could be conducted that sought to assess the quality of the services provided.</p>
6	<p><b>Strategic planning for public hospital services in the ACT</b> <i>(Health Directorate)</i></p>	<p><b>Areas of focus: greatest benefit for the whole community / improving services and programs</b></p> <p>Public hospital services in the ACT are presently provided by the Canberra Hospital, Calvary Public Hospital, Clare Holland House and the Queen Elizabeth II Family Centre. The Territory's first purpose-built rehabilitation hospital on the University of Canberra campus is scheduled to open in July 2018.</p> <p>The Health Directorate is aiming to achieve an integrated system of health care which includes commitments to ensuring all ACT residents have equal access to high quality hospital services, uniformity in management approaches and the achievement of administrative efficiencies.</p> <p>The audit could address matters such as planning for, and progress in: integration of management; administrative services; care standards; reporting; and case load management.</p>

**Table 5 – Potential Audits to Commence in 2020-21**

#	Topic/Entity or Agency	Potential Objectives and Scope
7	<p><b>Transport Canberra Buses</b></p> <p><i>(Transport Canberra and City Services Directorate)</i></p>	<p><b>Areas of focus: minimising waste in government / improving services and programs</b></p> <p>Transport Canberra Buses (formerly known as ACTION) are a key means of public transport in the ACT. Three issues of long-standing and significant interest regarding Transport Canberra Buses include its efficiency, operational performance and appropriateness of service offering. In 2010 the Audit Office tabled a performance audit of ACTION and in 2015 a major efficiency review was conducted, which offered a range of options for the future direction of ACTION. In response to the efficiency review, the ACT Government announced that it will adopt a reformed public sector provider model, which it considers should produce significant operating efficiencies.</p> <p>An important task for the Transport Canberra and City Services Directorate will be the integration of Transport Canberra Bus services and the Canberra Metro light rail services.</p> <p>The audit could examine the effectiveness and efficiency of Transport Canberra and City Services and its implementation of initiatives from the 2010 performance audit and 2015 efficiency review, as well as the effectiveness of the integration of bus and light rail services.</p>
8	<p><b>Young offenders</b></p> <p><i>(Community Services Directorate)</i></p>	<p><b>Area of focus: developing the next generation – all children get a ‘fair go’; assisting the disadvantaged and vulnerable</b></p> <p>Children (those under 18) face different legal consequences from adults if they are accused of committing a crime, from the youth justice system (which keeps records confidential) to different processes and locations for punishment. Even more than for adult offenders, there is an emphasis on rehabilitation. Some specific programs are in place, such as the Youth Alcohol and Drug Diversion Programs and Restorative Justice Conferencing.</p> <p>Youths under detention (to the age of 21) are held at the Bimberi Youth Detention facility operated by Community Services; numbers are small with the average number of detainees being 16 in July – December 2017. The use of lockdowns in the facility increased significantly from 2016 to 2017, and there have also been more assaults between detainees and instances of the use of force.</p> <p>The rate of young people charged with a criminal offence in the ACT has been in decline since 2011–12 and in 2014–15 was less than half the rate of 2010–11.</p> <p>The audit could focus on the effectiveness of alternative justice programs for young people and the management of the Bimberi Youth Detention facility.</p>

**Table 5 – Potential Audits to Commence in 2020-21**

#	Topic/Entity or Agency	Potential Objectives and Scope
9	<p><b>Administration of ACT Courts and Tribunals</b></p> <p><i>(Justice and Community Safety Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>The administration of justice in an efficient and timely manner is of high significance to the community. Previous audits by the ACT Audit Office, in 2005 and 2010, identified a number of opportunities for improvement in the administration of the Territory’s courts. These included exploring alternative governance models; reviewing funding issues; redeveloping the ICT system for case management; and analysing management information to support planning and other decision making.</p> <p>The audit could assess the effectiveness and efficiency of the administration of the ACT Courts and Tribunals.</p>
10	<p><b>Property services</b></p> <p><i>(Chief Minister, Treasury and Economic Development Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / minimising waste in Government</b></p> <p>As part of the 2017-18 ACT Budget, the ACT Government announced a new initiative which will consolidate the management of non-specialised property assets into a single property management division.</p> <p>Prior to this the Chief Minister, Treasury and Economic Development Directorate's ACT Property Group managed Territory-owned buildings and properties, operating on a quasi-commercial footing, recovering rent, debiting landlord costs, charging for discretionary services, and returning dividends to Government. The property portfolio included Government-owned buildings (293 properties) for Government use and for commercial and community use. In recent years, the structure of the Government’s property portfolio has been a key issue: ageing portfolio, de facto landlord of last resort (for buildings surplus to Government requirements), and unsustainable investment expectations given the premium ACT Property has been required to return to the Government. The audit could be timed and scoped to take into account the proposed centralisation of much of the ACT Government office accommodation.</p> <p>The audit could consider the effectiveness and efficiency of maintenance and improvement activities relating to properties in the Government’s property portfolio, including the achievement of landlord/lessor versus tenant/lessee objectives and expectations.</p>

**Table 5 – Potential Audits to Commence in 2020-21**

#	Topic/Entity or Agency	Potential Objectives and Scope
11	<p><b>Land Management Agreements</b> <i>(Environment, Planning and Sustainable Development Directorate)</i></p>	<p><b>Areas of focus: Advancing sustainable practices</b></p> <p>Land Management Agreements are intended to secure off-reserve conservation. The agreements, which apply to all natural resources, including land, surface and ground water, flora and fauna, biological diversity and ecological integrity can facilitate collaboration between the Territory Government and landholders to achieve production, conservation and protection. The agreements are subject to formal review every five years, and if problems are identified, an annual review is conducted.</p> <p>The audit could review the processes used to reach and review land management agreements, especially cases where there have been issues that needed to be resolved. It could also review the development and application of the ACT Environmental Offsets Guidelines; these should be consistent with the Commonwealth <i>Environment Protection and Biodiversity Conservation Act 1999</i> and facilitate Commonwealth accreditation of ACT processes.</p>
12	<p><b>Indigenous children at risk</b> <i>(Community Services Directorate)</i></p>	<p><b>Areas of focus: improving services and programs / assisting the disadvantaged and vulnerable / developing the next generation – all children get a ‘fair go’</b></p> <p>The Community Services Directorate has legislative responsibility under the <i>Children and Young People Act 2008</i> for facilitating and coordinating services across government for the care and protection of children and young people believed to be at risk of harm. The ACT’s five-year strategy <i>A Step Up for Our Kids - One Step Can Make a Lifetime of Difference</i> (the Strategy) was officially launched on 22 January 2015.</p> <p>Aboriginal and Torres Strait Islander children and young people are significantly over represented among care populations and this can affect life outcomes. In June 2017 the ACT Government announced a review into the over-representation of Aboriginal and Torres Strait Islander children in out of home care. The first phase of the review commenced in June 2017 and is expected to deliver an interim report in September 2018 and a final report around September 2019.</p> <p>The audit could examine the implementation of the Strategy. Depending on progress in implementing the Strategy, and any outcomes of the review of the Aboriginal and Torres Strait Islander children in out of home care, the audit could examine implementation progress and indicators of effectiveness.</p>

**Table 5 – Potential Audits to Commence in 2020-21**

#	Topic/Entity or Agency	Potential Objectives and Scope
13	<p><b>Building quality: certification, inspection and audit</b> (Chief Minister, Treasury and Economic Development Directorate – Access Canberra)</p>	<p><b>Areas of focus: improving services and programs / minimising waste in government</b></p> <p>Building regulation includes the <i>Building Act 2004</i> and regulations and other instruments made under that Act, including the ACT Building Code. It also includes the parts of the <i>Construction Occupations (Licensing) Act 2004</i> for licensing building practitioners and building surveyors.</p> <p>Individuals or organisations seeking to build, renovate or redevelop properties in the ACT engage building certifiers to ensure plans and works are completed in accordance with the building regulations. The Government’s licensing of builders and auditing and inspection activities provide additional assurance over building quality.</p> <p>The audit could assess the effectiveness of Access Canberra’s administration of the building regulation process, focusing on:</p> <ul style="list-style-type: none"> <li>• residential (Class 1 and 2) properties;</li> <li>• building certification;</li> <li>• mandatory and discretionary regulatory activity post building approval (construction phase);</li> <li>• the regulatory contribution to achieving enhanced environmental performance, such as the 5 star energy efficiency standard; and</li> <li>• improvements that are focused on emerging priorities and areas of risk, such as apartment buildings.</li> </ul> <p>The Legislative Assembly’s Standing Committee on Economic Development and Tourism’s inquiry into Building Quality in the ACT will be considered in further scoping and planning for this audit.</p>

## Attachment A: Conducting a Performance Audit

---

### The Mandate and Role of the Audit Office

The Audit Office supports the Auditor-General in carrying out the functions of the Office. The Office undertakes audits of management performance and the financial statements of public sector bodies. The aim of these audits is to promote accountability and provide independent assessments to the Legislative Assembly, including on whether the ACT Public Service and its resources are effectively and efficiently managed.

The Audit Office operates principally under the *Auditor-General Act 1996* (the Act). The Act defines the Auditor-General's mandate, responsibilities, powers and reporting requirements.

The Act also establishes the independence of the Auditor-General, prescribing that the Auditor-General is not subject to direction by the Executive or any minister in the performance of the Office's functions. The Auditor-General is an independent officer of the Legislative Assembly. The Auditor-General and Audit Office therefore have complete independence from government in determining the performance audit program, what to audit, how to audit and what to report.

The objectives of the Audit Office are to undertake a program of audits to produce independent reports with the purpose of:

- promoting a well informed electorate by ensuring that Legislative Assembly members, as the elected representatives of the people, are provided with accurate, complete and relevant information about the management of public sector resources; and
- promoting the economic, efficient and effective use of public resources by providing the Legislative Assembly, the Executive and public sector officials with independent advice relating to improving the management of those resources.

### The Objectives of a Performance Audit

The objectives of a performance audit are twofold. The first objective is to provide the Legislative Assembly with an independent assessment of the quality of management of public resources. The second objective is to identify and promote better management practices.

The *Auditor-General Act 1996* section 11B defines a performance audit as '... a review of any aspect of the operations of a person, body or thing ...'

Performance audits may address any matter related to public accountability for the administration of the Territory. They typically evaluate the administrative effectiveness, efficiency and economy of ACT Public Service entities. This can include an examination of: governance issues (such as risk management and other control structures); the use of human, financial and other resources; information systems; performance measures; reporting and monitoring systems; probity; and legal compliance. Performance audits may also assess the procedures followed by entities for remedying identified deficiencies.

Performance audits do not review the merits of government policy decisions. The scope may, however, include information leading to policy decisions, an assessment of the extent to which policy objectives have been met, and an assessment of the results of policy implementation both within the administering body and externally.

## **Conducting a Performance Audit – Basic Principles**

Achieving the key objectives of the Audit Office requires a commitment to maintaining the trust and confidence of audited entities and those who rely on the performance audit work of the Office. In doing this the Office must:

- conduct performance audits in accordance with professional standards and accepted better practice;
- demonstrate the highest standards of ethical and personal behaviour;
- approach performance audits in a fair and constructive way;
- provide accurate, reliable assessments and sound advice; and
- conduct and report performance audits in a manner that builds strong relationships.

## **Professional Standards and Accepted Better Practices**

All performance audits will be conducted in accordance with the principles, procedures and guidance contained in Australian Auditing Standards relevant to performance auditing. These standards prescribe the minimum standards of professional audit work expected of performance auditors, whether they are staff of the Audit Office or contractors engaged by the Office.

In accordance with auditing standards, audit reports provide reasonable, but not absolute, assurance. Performance audits will apply procedures that, in the auditor's professional judgment, reduce the risk of an incorrect conclusion to a low level. The procedures may include inspection, observation, enquiry, confirmation, computation, analysis and discussion.

Performance audits cannot provide absolute assurance because much of the evidence available to the auditor is persuasive rather than conclusive in nature.

## **Standards of Ethical and Personal Behaviour**

Performance auditors will comply with the ethical conduct obligations of public employees set out in the *Public Sector Management Act 1994* and the Public Sector Management Standards. Performance auditors who are members of professional bodies, including the professional accounting bodies, will also comply with the code of professional conduct established by those bodies.

## **Fair and Constructive Audits**

Performance audits will be conducted with impartiality and objectivity, and in a manner that recognises the principles of natural justice and procedural fairness.

Performance audit reports will present a balanced perspective, place primary emphasis on critical matters requiring attention, and identify opportunities for administrative improvement.

Performance audits will be reported on a timely basis, noting that performance auditing is time consuming and can take from seven to nine months to complete, depending on the complexity of the audited subject matter.

### **Accurate and Reliable Assessments**

Performance audits will provide reliable, evidence-based assessments and advice, ensuring all audit criteria and performance standards, findings and conclusions, and advice for improvement, are well-founded and supported. Opinions and conclusions must be identified clearly and based on sufficient evidence, testing and review processes.

### **Building Strong Relationships**

Auditors will be honest and forthright in all dealings with those audited and those who rely on the work of the Audit Office. Auditors will maintain the confidentiality of information obtained in the conduct of audits, except when disclosure is necessary to perform duties under the *Auditor-General Act 1996*.

Auditors will communicate openly throughout an audit with management responsible for the matters under review by:

- meeting with management at the start of an audit to discuss the terms of the audit (including the audit objective, the scope of the work and the audit criteria) and to establish a communication plan for the audit;
- meeting with management during the audit to discuss observations, analysis and provisional conclusions, and invite comments and explanations;
- endeavouring to resolve, at an early stage, differences of opinion or facts, interpretation of facts or conclusions to be drawn from them; and
- meeting with management to discuss the draft report, including observations, analysis, conclusions, recommendations and the audit opinion.

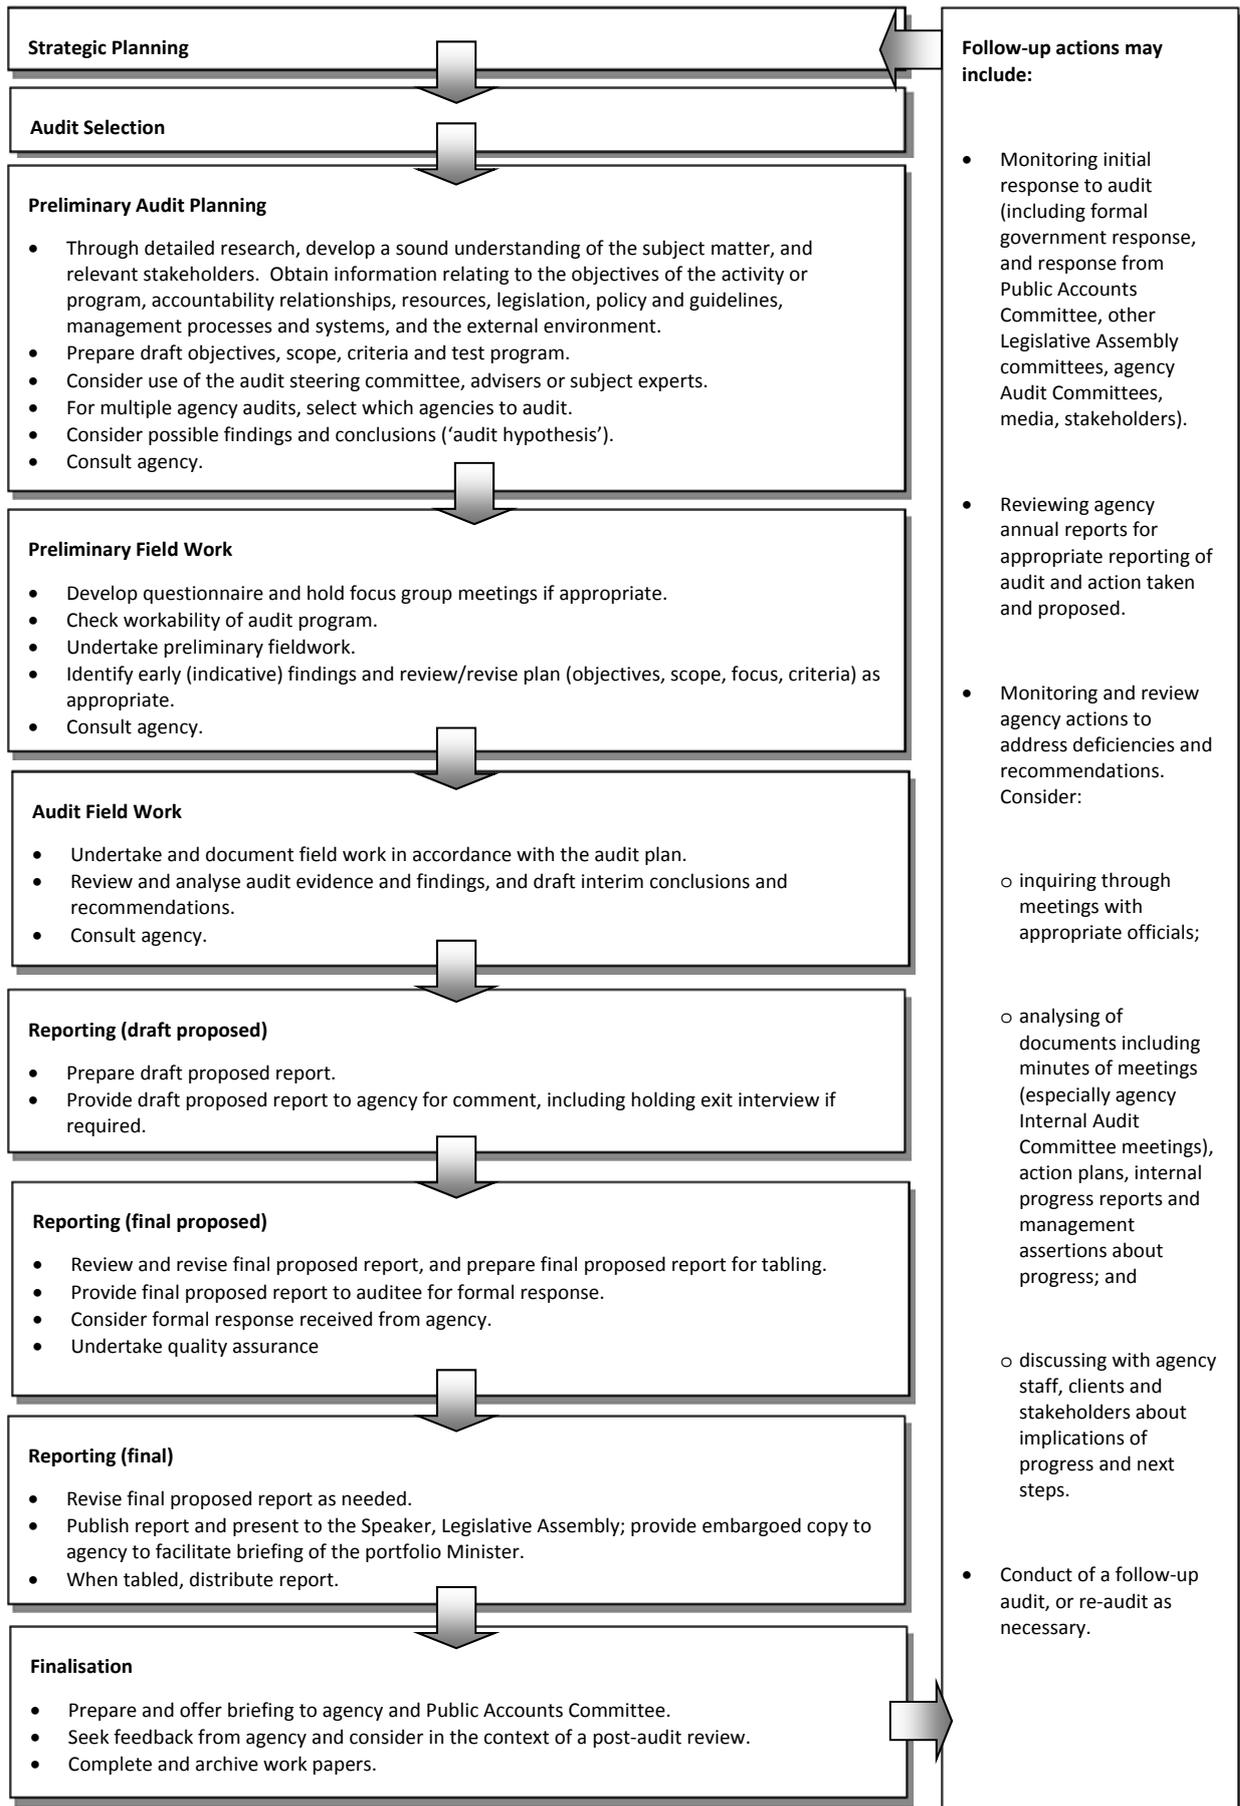

A report will be prepared to meet the audit objective(s), based on the audit evidence obtained, setting out the facts and findings, and presenting the audit conclusion.

Management will have an opportunity to provide informal comments and a formal response for inclusion in the final audit report.

### **Key Stages of a Performance Audit**

Figure 1 shows the key stages of a performance audit.

**Figure 1 – Key Stages of a Performance Audit**

## Attachment B: Selection of Performance Audit Topics

---

### Performance Audit Strategic Planning

The ACT Government delivers a wide range of services to the ACT community, including health, education, transport disability and community services and territory and municipal services. There are many areas of government activity that may warrant the attention of the Audit Office.

The scope of performance auditing includes the examination of efficiency, effectiveness, and sustainability of government activities; procedures and processes; accountability relationships; protection of public assets; and compliance with legislation and policy. The subject of a performance audit may be a government entity or activity, a sectoral activity, a government-wide functional area, a policy framework or a non-government service provider or recipient of government resources.

In planning and prioritising performance audit coverage, the Audit Office seeks to:

- promote transparency and accountability and value for money in the delivery of public services;
- provide the Legislative Assembly with independent assessments of the performance of public sector bodies, particularly as they relate to key outcome areas such as law and order, public safety, health, education, environment, finance and public sector management; and
- respond to emerging issues of importance to the Legislative Assembly and broader community.

Additionally, potential audit topics are selected to cover at least one of the following focus areas:

- greatest benefit for the whole community;
- improving services and programs;
- assisting the disadvantaged and vulnerable;
- developing the next generation – all children get a ‘fair go’;
- advancing sustainable practices; and
- minimising waste in government.

The Performance Audit Program also seeks to provide reasonable coverage across ministerial portfolios and of significant government activities over time. Although potential audits are selected and ranked with regard to the following six selection criteria, the Audit Office seeks to avoid having too many audits in one agency, as this may affect the capacity of the agency to deal with the audits.

## **Significance**

Significance refers to the scale and influence of the proposed topic. It is considered in terms of:

- **financial materiality**, which reflects the financial resources attributed to the topic – the value of the ACT Government assets, annual expenditure and annual revenue against a relevant financial base (such as the entity’s net operating result or the relevant expenditure or revenue category);
- **materiality by nature**, which recognises that an activity or program may have importance to perceptions of public administration and accountability by its very nature; i.e. even if it is not significant financially (fraud, abuse of authority, or waste may be ‘material by nature’ regardless of the amounts involved). This factor also includes the potential level of Legislative Assembly and public interest in the outcome of the audit; and
- **influence**, which recognises that an activity or program may have considerable influence or leverage beyond its own entity. These activities may be materially small but have a significant impact on other areas of the government or community. For example, a policy-setting body may be quite small but its influence can be extensive. Similarly, an audit of asset management or of performance measurement may in itself be quite a small function, but relate to significant expenditures or assets. Accordingly, the level of financial materiality influenced (using the financial materiality bands described above) can be taken into account.

## **Environmental Significance**

Although the Auditor-General has complete freedom to select topics, subsection 12(2) of the *Auditor-General Act 1996* requires environmental issues to be given some weight. This subsection states:

In the conduct of a performance audit, the Auditor-General may, where appropriate, take into account environmental issues relative to the operations being reviewed or examined, having regard to the principles of ecologically sustainable development.

All potential performance audit topics are separately assessed for their environmental significance.

## **Risks to Good Management**

Priority may be given to an area or activity where the Audit Office considers there are higher risks to good management (i.e. to efficiency, effectiveness or economy, as well as ethical and reputation risks). In considering risks, the Office will consider financial, social and environmental risks. This will include an assessment of risk factors such as:

- **nature**, where the nature of the subject matter creates inherent risks, such as new and emerging programs, innovative approaches, development of complex or innovative IT products;
- **history**, where previous reviews or audits in the relevant area have identified weaknesses in controls, systems or approaches that appear ongoing or have widespread effects;

- **change**, where the subject area has been subject to significant change, such as being given an expanded or markedly different role than in the past, or significant change of personnel, especially in leadership positions; and
- **visibility**, whereby risks tend to increase when activities are not open to public scrutiny. Visibility (transparency) refers to the extent to which the policy, guidelines, and processes affecting the activity or area are within the public domain.

### ***Potential Audit Impact***

The potential of a performance audit to promote public accountability and, through its recommendations, improvements in administration is an important consideration, whether the audit findings are positive or otherwise. Audit impact can be increased where recommendations arising from an audit are likely to have:

- a significant positive impact on agency performance;
- broader implications outside the audited agencies; or
- a whole-of-government application.

### ***Previous Reviews***

If there have been previous reviews by competent authorities, the Auditor-General is less likely to initiate a performance audit on the same topic. Such reviews include internal and external audits and evaluations and with respect to sustainability issues, reviews by bodies such as the Human Rights Commission and the Commissioner for Sustainability and the Environment. In assessing this criterion, the Audit Office considers the independence, coverage and quality of any previous reviews, how recently they were conducted whether the outcomes were made public, and whether the agency implemented the agreed recommendations.

### ***Auditability***

Audit selection takes into account the auditability of the proposed topic. This is influenced by such matters as the complexity of the subject matter, and the availability of acceptable audit criteria, performance standards, or reliable information. Other factors considered by the Audit Office include the availability of human and financial resources (e.g. audit staff, contractors, consultants or subject experts to act as advisers), and the likely duration of the potential audit.

## Attachment C: Audit Reports Tabled in the Legislative Assembly since 2011

Title	Report No.	Tabling Date
Physical Security	06/2018	31 May 2018
ACT clubs' community contributions	05/2018	27 April 2018
2016-17 Financial Audits - Computer Information Systems	04/2018	28 February 2018
Tender for the sale of block 30 (formerly block 20) Section 34 Dickson	03/2018	22 February 2018
ACT Government strategic and accountability indicators	02/2018	1 February 2018
Acceptance of Stormwater Assets	01/2018	31 January 2018
